

UNIVERSITY OF NORTH CAROLINA
CHARLOTTE

SCHOOL OF
DATA SCIENCE

Updates from the Director

Welcome to August; fall classes are just around the corner! Please check your Charlotte email for information regarding Town Hall and Orientation sessions for new and returning students. Some quick last-minute reminders for students:

- **Classes Start**: The first day of the fall semester is Monday, August 21st. Unless registered for online classes students are expected to be present on the first day.
- **Laptop Policy**: The University adopted a new “BYOD”(Bring Your Own Device Policy) in 2021. All students are **required to have a personal laptop computer** to support their college experience. The School of Data Science recommended that our students follow the university specification regarding hardware.
- **Textbooks**: Most of the course textbook requirements should have been posted to your individual class Canvas sites. More information about the Niner Course Pack option is below, but you can find general information regarding the campus bookstore and textbook options **HERE**.
- **Academic Integrity**: The University of North Carolina at Charlotte embraces an academic community committed to fostering teaching, scholarship, service, inclusion, and the overall growth of its students. At the heart of this community lies a fundamental value: academic integrity. We recognize the significance of cultivating an environment that upholds honesty, fairness, trust, respect, and shared accountability. We encourage all students to review and understand the University’s **Code of Student Academic Integrity**.

Additional resources are available on the program websites including links to free training and review materials. We are excited to welcome you all to campus in the coming weeks.

-Josh

RESOURCES

New FREE Tuition Opportunity Available to Grads & Undergrads!

The **Niner Career Challenge** provides a chance to win...**FREE SPRING 2024 TUITION!** The challenge will help you plan for career readiness, and engage in services and events that help you prepare for your future. This runs from **August 28th - November 30th**. You can periodically check your scorecard as you complete challenges throughout the three months.

LEARN
MORE!

SDS Appoints Dr. Shannon Reid and Dr. Marco Scipioni as Undergraduate Program Co-Directors

The School of Data Science (SDS) is excited to announce the appointment of **Dr. Shannon Reid** and **Dr. Marco Scipioni** as Undergraduate Program Co-Directors. In their new roles, they will be instrumental in shaping the governance, curriculum, student recruitment, and student success for SDS's undergraduate programs. Dr. Reid will oversee curriculum and governance, while Dr. Scipioni will focus on student success, including recruitment and retention.

Dr. Scipioni and Reid take over the position formerly held by **Dr. Angela Berardinelli**. Angela was the founding Program Director for the undergraduate degree in Data Science. She led the efforts to launch the degree. Her creativity and hard work were instrumental in the early

and ongoing success of the program. On behalf of the students and School, we extend our sincerest thanks to Dr. Berardinelli.

Student Social Media Features!

The School of Data Science wants to continue giving our excellent students the chance to share their experiences being a part of SDS and UNC Charlotte as the new Fall term approaches. For a chance to be featured in our blog and social media, email **Lindsay Lennon** (lindsay.lennon@charlotte.edu) from our Communications team!

Incomplete Grades that will default to Unsatisfactory

An important reminder that there is a time limit for Graduate and undergraduate courses on all Incomplete grades. **After 12 months the “I” will automatically convert to a “U.”** Incomplete grades that were assigned *in Summer 2022* will default to Unsatisfactory at the *end of Summer 2023*. To avoid suspension or termination the grade must be submitted no later than noon August 14, 2023.

Career Center Resources for SDS

If you have not connected with **UNC Charlotte’s Career Center** yet- what are you waiting for? The Career Center offers **in-person and virtual meet-ups** to explore career fields, resume writing, Effective LinkedIn profiles, etc. In addition to scheduled workshops, they have regular “walk-in” office hours and a variety of online **Career Programs**.

The Reynolds Center for Graduate Life and Learning (CGLL)

The CGLL is located in Room 149 of the Atkins Library Annex, across from the Career Center. It is a resource created specifically for graduate students and provides a physical setting for study sessions, mentoring, and social events for graduate and professional students. The CGLL also offers **professional development and workshops**. Stop in today!

Workshops and Courses with the Reynolds Center for Graduate Life and Learning (CGLL)

The CGLL serves Graduate Students with a variety of social and academic programs including target classes like:

NAVIGATING GRADUATE SCHOOL (GRAD 6000/8000) | 2 credits | MW | 4:00-5:40 PM | Online

This course is particularly relevant for first-generation and underrepresented graduate students. It will help graduate students identify and define how their identities, experiences, and skills can be leveraged to progress through the potentially challenging and isolating environment of graduate life.

WRITING FOR INTERNATIONAL STUDENTS (GRAD 6210/8210) | 3 credits MW | 1:30-3:00 PM | Atkins 146 OR TR | 10:00-11:30 AM | Atkins 146

Designed to benefit English as a Second Language (ESL) for graduate students and serves as an introduction to concepts central to graduate-level writing in the United States, such as academic integrity, audience awareness, and discipline-specific variation.

- [DSBA Internship Course](#)

Welcome to DataCamp!

The School of Data Science and the College of Computing and Informatics recently signed a trial agreement with **DataCamp**. All SDS students **actively enrolled** for summer or fall 2023, and all SDS faculty, have **FREE** access to the full suite of training modules, and access to learning resources on hundreds of topics in the field of data science. Visit your program's website ([HIA](#), [DSBA](#), [BSDS](#)) under "Bootcamps" to request a free account (or join UNC Charlotte's platform with their existing account).

Jamil Niner Student Pantry

Given that inflation has caused the price of food to rise dramatically, remember

that the Jamil Niner Student Pantry provides nutritious foods every week to currently registered UNC Charlotte students. [Visit their site for the shopping schedule.](#)

Data Matters: Data Science Short Course Series

August 7-11th, Virtual

Data Matters™ is a week-long series of one and two-day courses aimed at students and professionals in business, research, and government. The short course series gives students the chance to learn about a wide range of topics in data science, analytics, visualization, curation, and more from expert instructors.

**REGISTER
TODAY!**

Fall Special Topics and Electives

Topics in Geography: Urban Analytics GEOG 4000/5000

Fall 2023 | TR 2:30 - 3:45 pm | Dr. Youngseob Eum

Course Description: Urban analytics is an emerging field that helps improve the understanding, management, and planning of cities by harnessing big data from a wide array of sources, including mobile devices, remote sensing, social media, and government records. This course introduces students to data analytics approaches to dealing with some of the biggest challenges that modern cities face, such as urban sprawl, crime, air pollution, traffic congestion, and socioeconomic inequity. Hands-on practices will help students to be equipped with essential R programming skills and data analytics techniques to collect, manage, and analyze various types of data in order to extract meaningful insights, make informed decisions, and disseminate findings to support urban planning and policymaking.

Prerequisite & Preparation: This course has no formal prerequisite, but working experience in R Programming is assumed.

Faculty and Staff News

We are pleased to welcome several new faculty members to the SDS team this fall:

Kornelia Bastin, Ph.D.- Dr. Bastin is a Vice President and Lead Data Scientist for Truist Bank. Her research focuses on text analytics using NLP, Machine Learning, Deep Learning, and Neural network techniques together with visualization. This semester she will teach a section of DSBA/MBAD 6201 Business Intelligence and Analytics.

Sabyasachi (Sabby) Gupta- Sabby Gupta is currently a partner at Apexon. He brings a deep and diverse range of experiences working in health sciences and consulting. This semester he will be teaching HCIP 6393 Advanced Health Data Integration.

Steven Jordan- Steven Jordan is currently a Senior Manager for Client Experience Analytics at Vanguard. Steven is also an alumnus of the DSBA Master's program. This fall he will be teaching a section of DSAB/HCIP 5122 Visual Analytics and Storytelling.

Samira Shaikh, Ph.D. - Samira Shaikh is currently the Director of Data Science at Ally Bank. Formerly she was an Associate Professor at UNC Charlotte. We are exceptionally pleased to welcome her back to campus this fall. Dr. Shaikh will teach DSBA 6165 AI and Deep Learning.

Data Science and Health Informatics In The NEWS

ChatGPT drafts accurate patient illness summaries

Attending physicians in internal medicine correctly surmised whether a history of present illness notes was generated by ChatGPT or a senior internal medicine resident 61% of the time, according to a research letter published in JAMA Internal Medicine. HPI summaries generated by residents were more detailed, but overall scores differed by a mean of one point on a 15-point scale, and co-author Ashwin Nayak says large language models can "draft clinical notes at a level that we would want as a clinician reviewing the charts and interpreting the clinical situation."

STORY

Deep learning may guide Crohn's disease treatment

A deep learning model that analyzes capsule endoscopy videos identified patients newly diagnosed with Crohn's disease who might benefit from biologic therapy, according to a study published in *Therapeutic Advances in Gastroenterology*. The model detected and accurately graded inflammation indicators in CE images and outperformed a standard scoring system when predicting the need for biologic therapy.

Campus Wide Recruitment: UNC Charlotte's Career Center

If your company is looking to target new talent, a reminder for alumni that Hire-a-Niner is still available to you- *as an employer*. You can limit your reach to students- graduate and undergraduate- enrolled in the School of Data Science or target the entire campus. *Please let us know when you post and we will make sure that it also gets featured in the regular SDS newsletters.*

Posting Jobs & Internships

Setting up an Employer Hire-A-Niner Account:

1. Visit <https://hireaniner.uncc.edu/employer>
2. Please note this is your first invitation to view our policies. "Welcome Employers! Please read our [Employer Policies](#). By using Hire-A-Niner, you agree to adhere to these policies. Please contact our employer team with any questions at recruitUNCC@uncc.edu."
3. Click "Register For A Hire-A-Niner Account"
4. Complete the information, and click "Submit"
5. You will receive a system-generated email confirming receipt of your registration request
6. Within 2 business days, your account will be reviewed for approval

Once you have access to Hire-A-Niner, you will be able to post/manage positions and choose from the many different recruiting services and events we offer each semester. If you are interested in discussing other recruitment and branding opportunities with the University Career Center, we encourage you to connect with our Employer Engagement Team at recruit@uncc.edu.
